

Monitoring and Evaluation next steps

A framework for voluntary reporting?

Rebecca Jackson-Pitt, Natural England

Why monitor?

Achievements

Combined

Contribution
Recognition

Individual

National objectives

- Amalgamate delivery to assess combined contribution
- eg B2020/Lawton principles

Recognition

- Express individual contribution to national objectives
- Funding bids

Evidence

- Inform future decision making
- Targeting resources

Investment

- Demonstrate return on investment
- Win continuing support

Consistency

- All to a nationally agreed methodology
- Fit for purpose

What have we learned from the NIA M&E?

Retain integration

Biodiversity

Ecosystem services

Socio economic

Keep it simple

Meet the identified need

Minimise number of metrics

Analysis and interpretation

Single data entry

Reporting location

Data source

Remove duplication and overlaps

Standardisation

Consistent agreed terminology

Reduce flexibility

Added Value

Whole > sum of parts

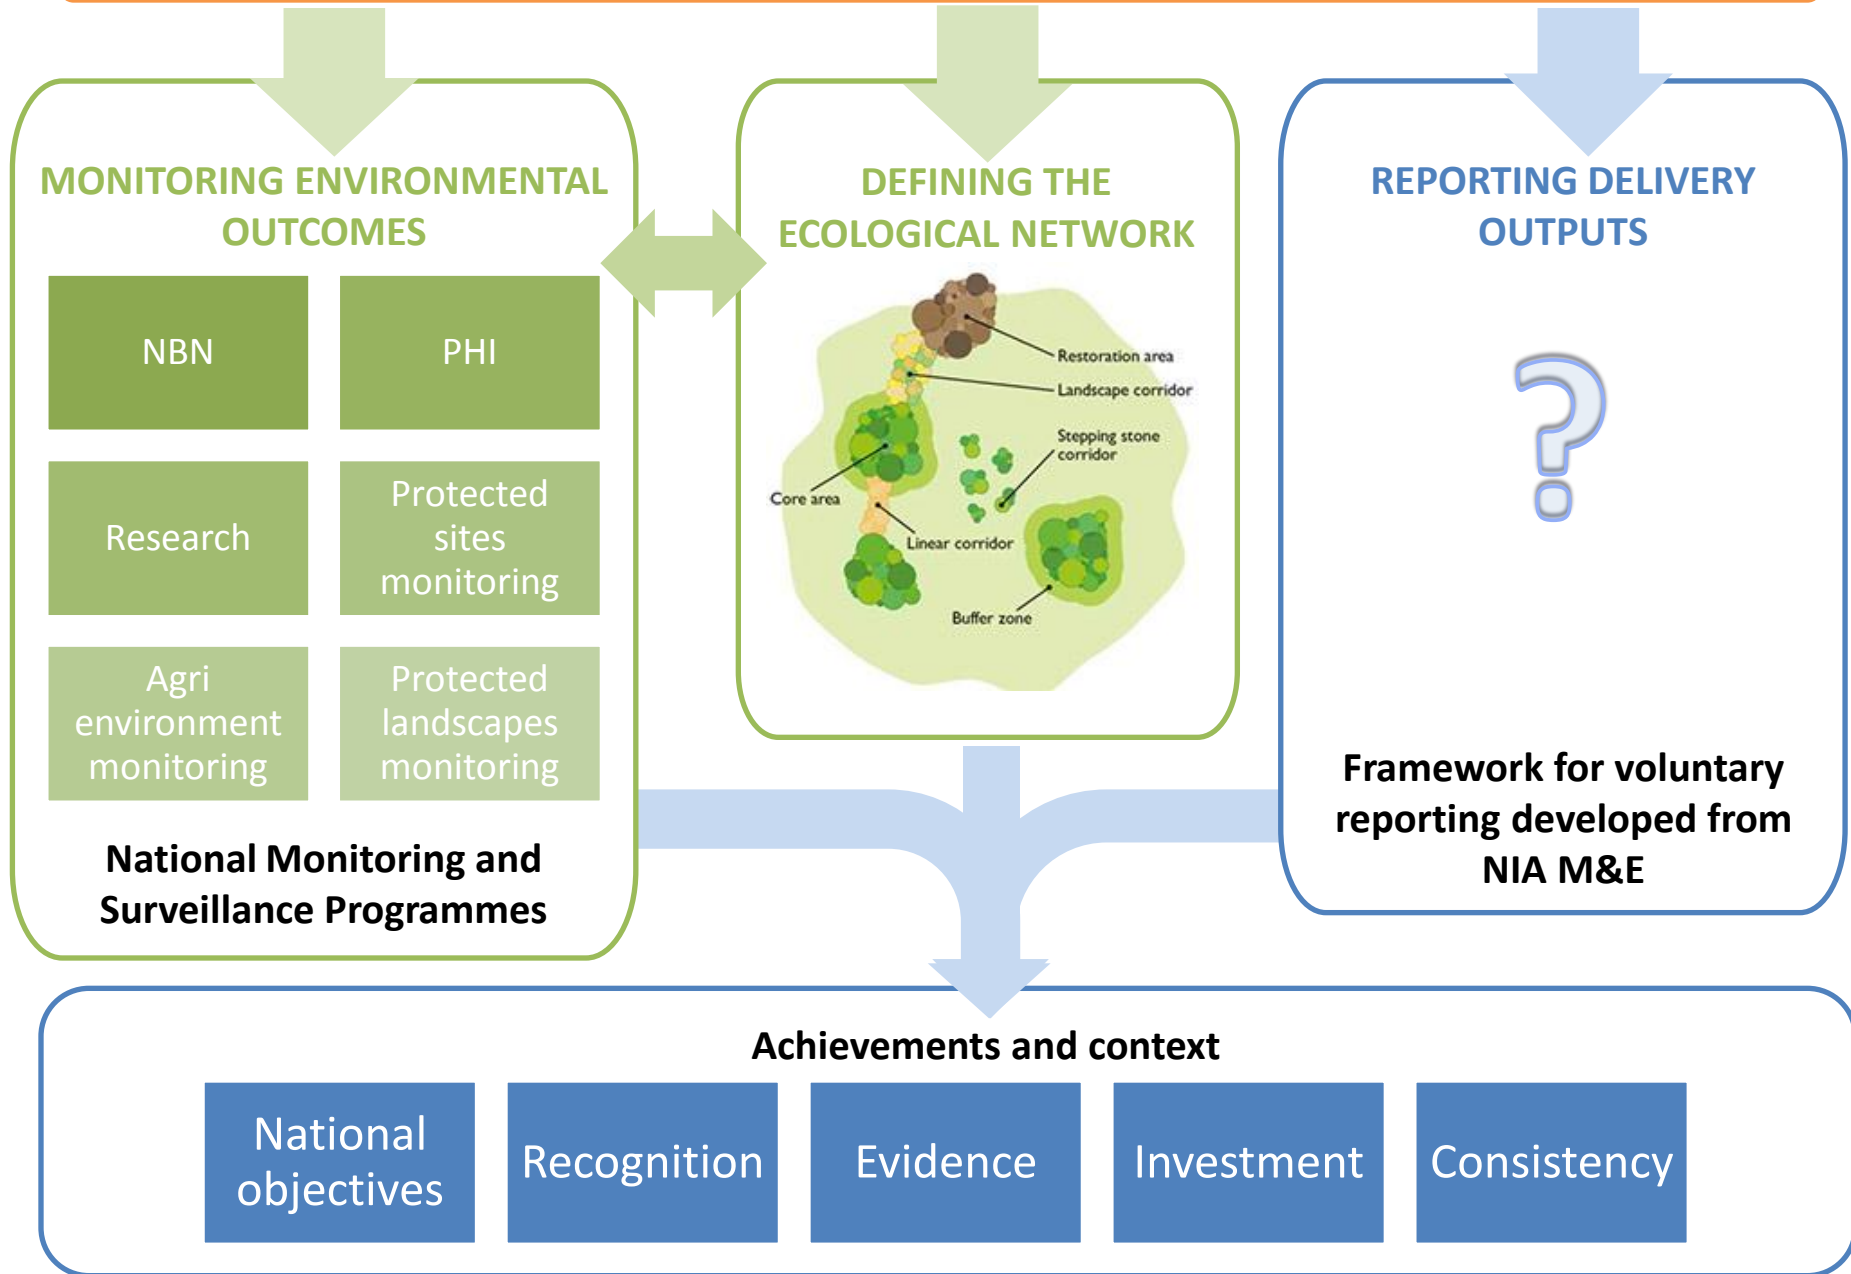

Influencing/coordinating

Project derived data

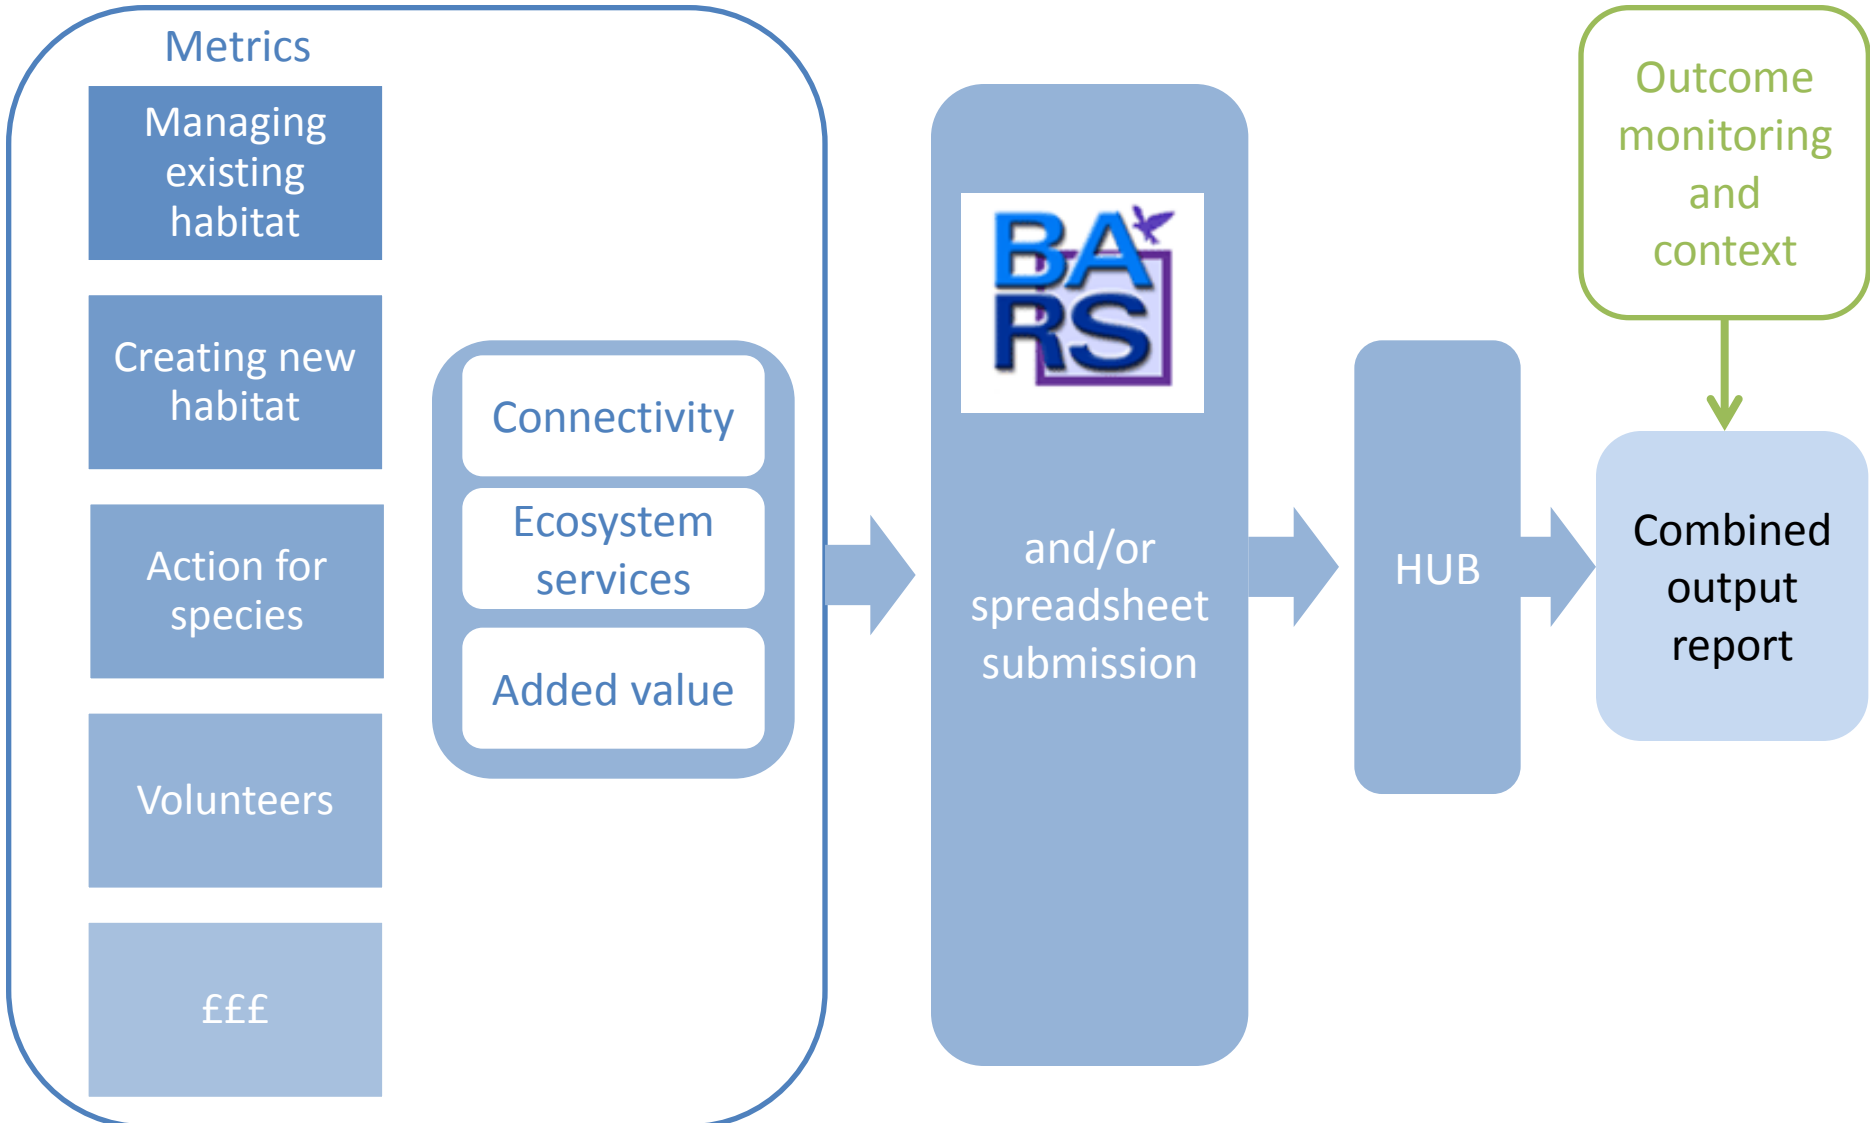

Outputs/outcomes

Remove bespoke surveillance requirement

Local & Landscape Scale Delivery Projects

What might a voluntary reporting framework look like
